

## **AGENDA**

Indiana Department of Environmental Management  
Antidegradation Stakeholder Meeting  
Fort Benjamin Harrison  
The Garrison, North Ballroom  
6002 North Post Road, Indianapolis  
10:00am to 5:00pm EDT  
**Wednesday, June 25, 2008**

- IDEM will explain the changes to the draft rule so people may understand the rationale for the changes and IDEM's intent.
  - IDEM will respond to requests for clarity, but does not want to open discussion/debate on the changes at this point in the agenda (see subsequent agenda items).
- IDEM will run through some examples of calculating effluent limits/de minimis.
- Open discussion on how to proceed with the rule language development.
  - IDEM believes a smaller, self-selected group of designees from the main interest sectors should work together with IDEM to work through topics.
  - We would like to hear feedback on this suggestion and hear other suggestions on how to proceed.
- Determine how to proceed.
- Identify and prioritize topics to be deliberated.
- If it fits with the outcome of the determination on how to proceed, then open discussion on priority topic(s).
